

## Direction For Use And Maintenance

### For cleaning the inner side of grinder;

- \* Remove the jar (12) and adjusting mechanism (11).
- \* Take out the inner burr (10) and spring (8).
- \* Pull out the shaft (6) from the upper side.

Clean the residual coffee powder with a brush.

Do not bring the main body of the grinder contact with water; just use a damp cloth for cleaning.

\* If the mill is exposed to some detergent in the dish washer, the next coffee you will prepare may contain unpleasant smell and taste.
